

Pathways Europe 2018 - 16th - 19th September Goslar, Germany

M

Welcome

M-A2 Migratory Fish Species

M-A3 Human-Wildlife Conflict

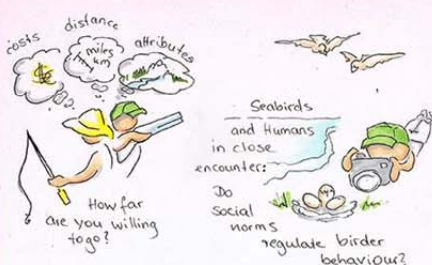

Spatio-Temporal Assessment and Management of Human-Wildlife Conflicts in the part of Northern Western Ghats

Rewilding and Socio-Ecology of Guanaco Repopulation in Chile

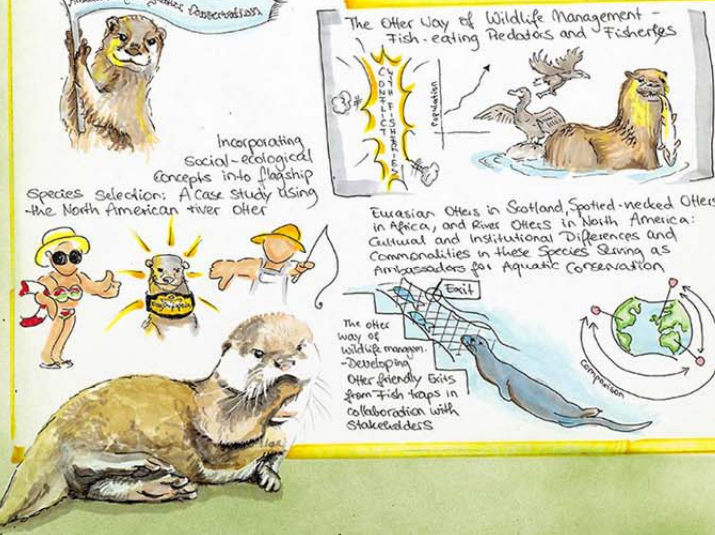

M-A1 Tourism and Recreation 'A'

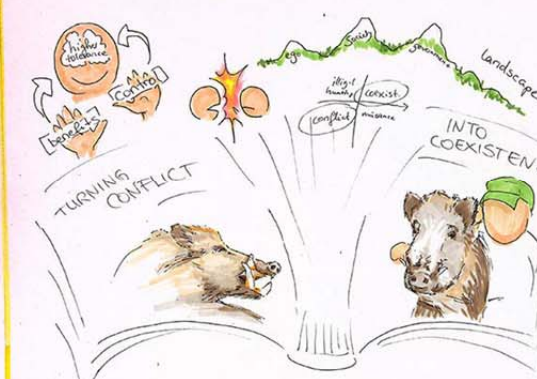

Wildlife Tourists' Reactions to not seeing the animal they would like to see - Polar Bear Tourism as a case study

M-B3 Otters and Conservation

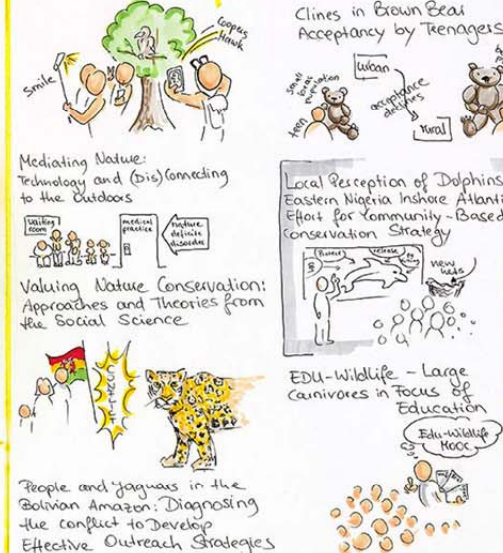

The virtues and liabilities of using Otters as Flagships for Aquatic Conservation

M-B1 Human-Wildlife Interactions: Turning Conflict into Coexistence

M-B2 Wildlife Education

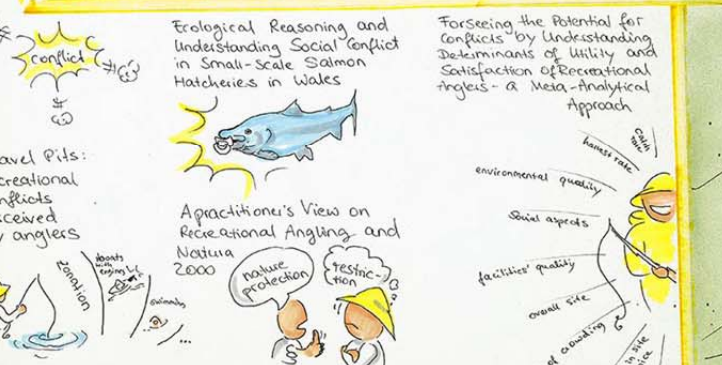

M-C1 Hunters, Hunting and Wildlife Conservation

M-C2 Social Change and the Future of Carnivore Conservation

M-C3 Including Communities in Evidence-based Conservation

M-C4 Understanding Conflicts

Accelerating understanding and improving management of human-wildlife conflict by applying an anthropological perspective

T-E1 Tourism and Recreation 'S'

Explaining the Acceptance of Limitations to Ski Touring

Transitions Among Sportsperson Permit Holders and the Influence of Cross-Buying Behavior

Sportsperson's Motivations and Their Barriers toward Waterfowl Hunting

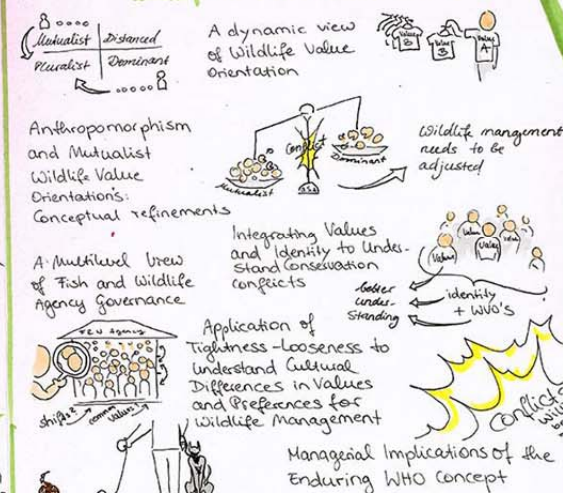

The emotional appraisal of wildlife populations: Fear, interventions to reduce fear, and their management implications

- application all year around
- joint applications → trans-national
- collaborative application by associations
- simplification of application process

T-G1 Refocusing the concept of Wildlife Value Orientations

Fishing villages Fearing Seals

Cattle selectivity and Mitigation of Human-Leopard Conflict over depredation

T-G3 Livelihoods and HWC 'S'

T-E2 Aquatic and Marine Conservation

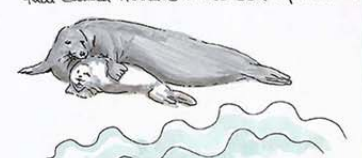

Water Allocation: Segmenting Public Beliefs towards Water Conservation

To comply or not to comply? Recreational Boaters Compliance with Right Whales' Regulations in the S-Eastern U.S.A.

Mother-Pub-Bond of Harbour and Grey Seals and the Difference of European Seal Rehabilitation: And Different Reasons, that caused Problems in the Seal Population

Climate Change Responses of Mediterranean Fishes: Fishes' Knowledge

European Wildcat Protection - Connecting Habitats and People

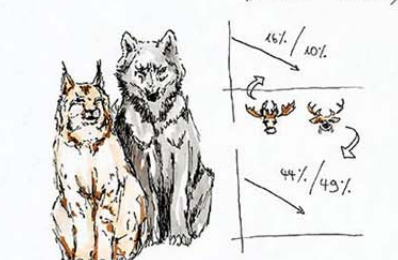

Long-Term Engagement for Citizen Science and Conservation: Bird Counters in the Wadden Sea

T-E3 Citizen Science

Hunter-Perceived Wolf-Lynx-Deer Interactions in Lower Saxony

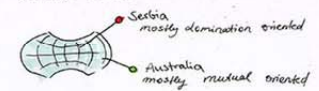

T-F1 Wildlife Value Orientations

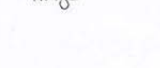

Linking Value Orientations, Acceptance Capacity and Management

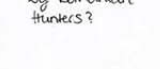

A cross-Cultural Comparison of Wildlife Value Orientation

Hunters on the Fringe

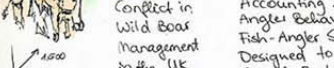

Are carnivores considered equal by Romanian Hunters?

Public Acceptance of Wildlife Management Interventions in Malaysia

Conflict in Wild Boar Management in the UK

Knowledge in Adaptive Co-Management of White-Tailed Eagle Conflict

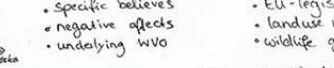

Managing Human-Deer Conflicts: Ethical Dilemmas of Non-Lethal Control

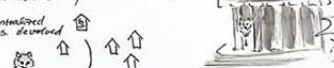

Wild Kinds Seeking Collaboration

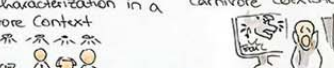

Wildlife Management Based on Science, Monitoring and Participation

Evaluation of Macaque Management in Japan

Developing Wildlife Management Strategies for Urban Areas

The condition of a Community and Effective Crop Damage Management: A Mail Survey of Farmers in Chiba Prefecture, Japan

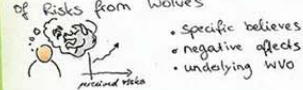

Why have the Wolves migrated to Genua? Socio-Political Transformations and Wolf Reintroduction in Poland

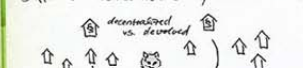

T-F2 Wildlife Management and Policy 'A'

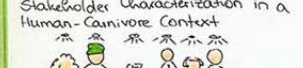

Cognitive and Affective Predictors of Risks from Wolves

Attitudes Towards Wolves under Different Governance Systems

Stakeholder Characterization in a Human-Carnivore Context

Information Shapes Attitudes and Matters for Human-Carnivore Coexistence

Wolves in Washington: Insights for Rewilding in Europe

T-F4 Livelihoods and HWC 'A'

Why have the Wolves migrated to Genua? Socio-Political Transformations and Wolf Reintroduction in Poland

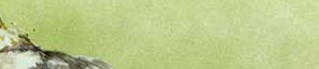

Wolves in Washington: Insights for Rewilding in Europe

Information Shapes Attitudes and Matters for Human-Carnivore Coexistence

Wolves in Washington: Insights for Rewilding in Europe

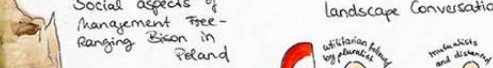

Information Shapes Attitudes and Matters for Human-Carnivore Coexistence

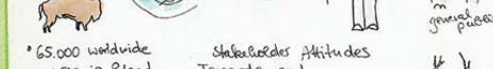

Human-Carnivore Coexistence in Cultural Landscapes

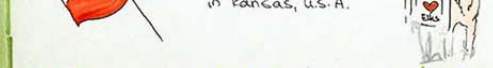

Social aspects of Management Free-Ranging Bison in Poland

Stakeholders Attitudes Towards and Wildlife Acceptance Capacity for Elk (Cervus elaphus) in Kansas, U.S.A.

View of Wildlife influences landscape Conversation action

Stakeholders Attitudes Towards and Wildlife Acceptance Capacity for Elk (Cervus elaphus) in Kansas, U.S.A.

Stakeholders Attitudes Towards and Wildlife Acceptance Capacity for Elk (Cervus elaphus) in Kansas, U.S.A.

T-E4 Views of Wildlife, landowners and Public

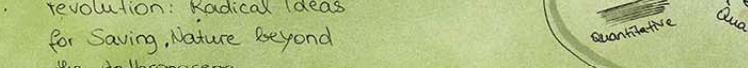

Do we wish to continue to just study people? Or are we willing to work with people to achieve conservation?

Research has to bridge the gap and help bringing the needs into planning

The conservation revolution: Radical Ideas for Saving Nature beyond the Anthropocene

Do we wish to continue to just study people? Or are we willing to work with people to achieve conservation?
